Subject Index

Volume 3

A

Acute care case management model, for nurses and social workers, 208
Advanced case management practice, transitioning from basic case management to, 63
Advanced nurse practice, collaboration between roles in, 120
Airway disease, lower, pediatric, cost of, 75
Appendicitis, improving care with pediatric appendicitis pathway, 26
Automated clinical pathways, legal implications of, 131

B

Basic case management practice, transitioning to advanced case management from, 63
Behavioral health clinical guidelines, for depression, 204

C

Career planning, 271
Case management
  careers in, 271
  future of, 183
  historic background of, 55
  recognizing contributions of, 229
Case management programs, mergers of, 104
Clinical nurse specialist/case manager role, collaboration with nurse practitioner role, 120
Clinical pathways
  automated, legal implications of, 131
  improving care with pediatric appendicitis pathway, 26
  in multidisciplinary environment, 46
  for patients after liver transplants, 255
Communication, conflict management techniques and, 36
Computerized documentation, 247
  overtime reduction by, 266
Conflict management techniques, 36
Congestive heart failure
  Continuity of Care Prism Process applied to, 79
  outcomes with, in nursing case management model, 108
Continuity of Care Prism Process, for congestive heart failure, 79
Costs
  economic. *See* Economics
  emotional, of case management, 89
Critical pathways, selection of, 117

D

Depression, behavioral health clinical guidelines for, 204
Diabetes management, in rural clinic setting, 192
Disease management, cost containment and, 99
Documentation, computerized, 247
  overtime reduction by, 266

E

Economics
  cost of pediatric lower airway disease and, 75
  disease management approach to cost containment and, 99
Emotional costs, of case management, 89
Enteral nutrition, transitioning from hospital to home and, 67

F

Fractures, of hip, care for, 220

H

Hip fracture care, 220
Home care
  Supported SelfCare system and, 7
  transitioning to, enteral and parenteral nutrition and, 67

I

Interdisciplinary team, clinical pathways for patients after liver transplants and, 255
Internet, surfing, 240

J

Job design, effects on satisfaction and well-being, 11
Job satisfaction, 1
  job design and, 11

L

Legal issues, with automated clinical pathways, 131
Liver transplants, clinical pathways for patients after, 255
Lower airway disease, pediatric, cost of, 75

Job design, effects on satisfaction and well-being, 11
Job satisfaction, 1
  job design and, 11

L

Legal issues, with automated clinical pathways, 131
Liver transplants, clinical pathways for patients after, 255
Lower airway disease, pediatric, cost of, 75

M

Mergers, of case management programs, 104
Multidisciplinary teams, clinical pathways with, 46

N

Nurse managers, as support system for nurse case managers, 216
Nurse practitioner role, collaboration with clinical nurse specialist/case manager role, 120
Nurses, acute care case management model for, 208
Nursing, Supported SelfCare system and, 7
Nutrition, enteral and parenteral, transitioning from hospital to home and, 67

O

Outcome, with acute stroke, with and without case management, 196
Outcomes
  with congestive heart failure, in nursing case management model, 108
  designing measurements to assess, 2
Overtime, reduction by computerized documentation, 266

P

Parenteral nutrition, transitioning from hospital to home and, 67
Patient care
  improving with pediatric appendicitis pathway, 26
  Supported SelfCare system and, 7
Patient satisfaction, 184
Pediatric patients
  cost of lower airway disease in, 75
  improving care with pediatric appendicitis pathway, 26
Presentations, preparation for, 97
Professional role, nurse case managers' opinions of, 231

R

Respiratory disease, of lower airway, pediatric, cost of, 75
Resumes, building, 53
Rural clinic setting, diabetes management in, 192

S

Social workers, acute care case management model for, 208
Standards, for guiding care in depression, 204
Stroke, acute, outcomes with and without case management, 196
Support system, for nurse case managers, 216

T

Technology, Supported SelfCare system and, 7

W

Well-being, job design and, 11
Workload determination, 128
